

The sky is no longer the limit

The aerospace industry is a business that requires remarkable precision, attention to detail and a keen sense of timing. Your work meets a high standard and so does ours. Whether you're shipping to Wichita, Toulouse or Sao Paulo, you need to get the right part to the right place at the right time. When you work with FedEx, we help you do just that — **and transform limitations into possibilities.**

Whether your urgent need is related to aircraft-on-ground (AOG) incidents; maintenance, repair and overhaul (MRO); or aircraft manufacturing, there's no room for error. **FedEx® Aerospace Solutions** gives you one source for transporting the parts that make your industry work, wherever they need to go. We bring together expert knowledge in logistics and customs with our own network of FedEx planes, trucks, facilities and partner carriers for unbeatable speed and reliability.

Why FedEx Aerospace Solutions?

Your business depends on the delivery of critical products and components wherever airplanes fly. Here's what you get with FedEx Aerospace Solutions.

- **Speed:** Whether a part is needed today or a shipment needs to reach a factory next week, we can ship with the speed you need.
- **Reach:** The world is your runway. From Sao Paulo to Seattle, Toulouse to Montreal, we go wherever airplanes fly.

- **Reliability:** Every shipment is critical to your bottom line. We've built our reputation on reliability, giving you peace of mind.
- **Control:** We can monitor every step of a shipment and give you complete visibility, letting you adjust and plan with confidence.
- **Expertise:** We can handle any item of any size. And we know how to navigate the world of customs and international logistics.

Global reach, any way you need it

Your business takes you anywhere and everywhere. And that's where we go, too.

Fast, reliable package and palletized freight service:

Get reach to every major aerospace manufacturing facility, airport and maintenance hub. Turn to us for fast, reliable delivery of your time-sensitive packages and palletized freight in the U.S. and around the world. Our expansive aircraft fleet includes Boeing 777Fs, which increase speed and efficiency on their routes.

Customized shipping services: When you have an urgent or nonstandard need, we can go above and beyond any standard service. Get time-specific pickup and delivery throughout North America, 24 hours a

day, 365 days a year; access to exclusive-use trucks and virtually every on-demand aircraft in the world; and global shipping with service to more than 220 countries and territories.

Freight forwarding and customs services:

The aerospace industry needs far-reaching and flexible options to keep airplanes flying. We deliver, whether by air, ground or ocean, anywhere in the world. We offer freight forwarding as well as comprehensive customs brokerage, export documentation, and trade and customs advisory services.

Cost-effective ground package service in the U.S. and Canada:

Balance speed and economy with FedEx. We reach 100% of U.S. business addresses and offer day-definite ground delivery in 2 to 7 business days to every business address in Canada.

Less-than-truckload freight shipping throughout North America:

FedEx also offers reliable, responsive, day-definite delivery of both fast-transit and economical less-than-truckload (LTL) freight within one streamlined network to the U.S., Canada and Mexico.¹

Extraordinary needs, extraordinary service

When an AOG incident disrupts service, a manufacturing line is idle for lack of a component, or a critical shipment won't fit in a shipping container, you need options you might not find in any standard service, including:

- **Aircraft Charters:** Service in and out of hundreds of U.S. and international airports.
- **On-Board Couriers:** We'll hand-carry a critical shipment.
- **Next Flight Out:** We'll find the next aircraft, cargo or commercial, that will get your shipment there.
- **Next Drive Out:** We'll send your time-critical shipments on a dedicated vehicle.
- **Local Courier Services:** We'll book your shipment for local delivery and to or from the airport.
- **Ocean and Intermodal Services:** FedEx provides worldwide freight forwarding services using all modes and a portfolio of carriers.

Specialized services

Customs and Brokerage Services

FedEx has the knowledge and resources to meet your customs brokerage needs. Import or export, by ocean, air or ground, we offer the global reach and expertise you need.

We also offer several tools to aid in the creation of shipments and documentation. You can even designate your own broker if you prefer.

Visibility and Monitoring

We provide solutions that help ensure on-time delivery and give you peace of mind, beyond our online and software solutions.

- **FedEx Priority Alert™:** A dedicated specialist provides around-the-clock support, monitoring, notification, and more.
- **SenseAwareSM powered by FedEx:** Combines a multi-sensor device with a powerful online application to provide you with near real-time information about your shipment — giving you visibility of your supply chain.²
- **FedEx InSight®:** Monitor and receive notifications about all of your shipments, as well as third-party shipments billed to you, without a tracking number.

Returns Solutions

Returns solutions in the U.S. and internationally enable you and your recipients to return items easily, simplifying and speeding the process and improving inventory management. Available with select services and in select countries.

Electronic Shipping and Management Tools

You need easy access to accurate shipping and billing data. We have the tools to give you a clear picture, including FedEx Ship Manager®, FedEx® Reporting Online and FedEx® Billing Online Plus.

Other Value-Added Solutions

Ask about priority boarding, dangerous goods handling, direct distribution and Saturday delivery.³
