INTRODUCTION

The purpose of this guide is to assist electronic data trading partners with information about implementing an Electronic Data Interchange (EDI) process with FedEx for Invoicing and Remittance data of FedEx Express and FedEx Ground shipments. The guide discusses benefits of EDI and how to get started with implementation. This guide will also provide resources for getting additional information.

FedEx provides an additional electronic Invoicing and Remittance solution besides traditional EDI, which is FedEx Billing Online. This solution is outlined in more detail at:

<http://www.fedex.com/us/account/billoptions/> You can also call your FedEx Account Executive or Electronic Revenue Support (ERS) Analyst for more information.

- FedEx Billing Online Plus (FBO+) is a web-based solution allowing users view and settle all FedEx Express and FedEx Ground invoices. Benefits include:
 - o View invoices and shipment detail
 - o Schedule Electronic Funds Transfer payments or pay with a check
 - o Create reports and complete administrative functions
 - o Question shipment charges
 - o Download invoice data
 - o Register on-line

WHAT IS EDI?

Electronic Data Interchange (EDI) is the electronic exchange of business documents using a standardized format. The entities that transmit or receive this electronic data are called trading partners.

EDI can be used to transfer invoice and remittance data for FedEx Express and Ground shipments between FedEx and authorized trading partners.

EDI processing helps FedEx deliver top-quality service that takes advantage of advanced information-management technology. EDI can help customers increase efficiency while reducing errors and operating costs. Additional specific benefits of implementing EDI with FedEx include:

- Reduced paper handling and mailing costs. In most cases the costs to transmit an electronic document is considerably less than mailing costs.
- Invoices for multiple FedEx accounts can be combined into a single transmission. Electronic invoicing enhances your control over accounts payable, even when shipments originate from multiple sites.
- Eliminates keying of invoice data and reduces errors, so you'll spend less time and effort verifying and processing your bills.
- Electronic invoicing provides convenient verification of shipping charges and proof of delivery (FedEx Express only).
- Electronic invoicing allows for quick and accurate allocation of shipping costs to internal departments and third parties, streamlining your accounting and improving cash flow.
- Invoice adjustments can be submitted electronically.
- Multiple data formats allow easy integration with Accounts Payable processes.

Electronic File Data Flow

Electronic Data transmitted to/from FedExNet mailbox (or VAN or choice)

1. Express and Ground Invoices transmitted to customer
2. Remittance Advice and/or Dispute/Non-Pay Request transmitted to FedEx
3. Dispute/Non-Pay Resolution transmitted to customer
4. Payment via Check or Electronic Funds Transfer (EFT)

GUIDELINES AND LIMITATIONS

General

In addition to the terms and conditions stated in the FedEx Service Guide:

- **To be eligible for electronic invoicing, you must send your remittance data electronically** (US). Payment can be made via check or Electronic Funds Transfer (EFT).
- Past due charges will be sent electronically unless otherwise specified. In accordance with the FedEx Service Guide, payment must be made within 15 days of the invoice date.
- Packaging Supplies/Retail Sales and Electronic Export Information/EEI charges will be included with EDI files unless otherwise requested.
- On your normal billing cycle, you will receive an invoice file for all account numbers requested to be billed electronically.
- All shipments billed to the accounts that you provide to us for electronic invoicing will be included in the invoice transmission with the exception of Same Day Service.
- You can receive Intra-U.S. and International invoices (separate invoice files) for both Express and Ground.
- Duty/tax invoices for International shipments will be included in the International file. Unless otherwise instructed.
- Electronic documents are not considered "received" until they are accessible on the receiving mailbox.
- Electronic documents transmitted for electronic invoice and remittance are considered written documents. They constitute an original when they are printed from electronic files or records established and maintained in the course of business.
- Failure to retrieve electronic invoice files in a timely manner may result in termination of electronic invoicing by FedEx. Paper invoicing will resume.
- Lack of reference data provided by the shipper is NOT a valid reason for invoice adjustments.
- Short payment problems identified by FedEx that are related to programming in your accounts payable system or databases must be corrected immediately.
- FedEx may modify electronic invoice and remittance formats at any time.
- After implementation, either party can terminate electronic invoice and remittance with prior notice.
- Shipments are governed by service conditions in the current FedEx Service Guide and Addendum.
- If there is a conflict between this guide and the FedEx Service Guide, the Service Guide will take precedence.

GUIDELINES AND LIMITATIONS (cont.)

...For Duty/Tax Invoicing

The following guidelines and limitations apply to the FedEx Electronic Duty/Tax Invoicing process:

- Duty/tax adjustment requests may not be submitted electronically, and must be submitted in writing.
- Duty/tax Customs documentation may be mailed or available online.
- The duty/tax tracking number in the duty/tax record will be the same tracking number used for the transportation charges of the shipment.
- The International freight charges and duty/tax charges may be billed on separate invoices and may appear in different electronic invoice files.

...For Remittances (U.S. Payor only)

The following guidelines and limitations apply to the FedEx Electronic Remittance process:

- All remittances can be included on your transmission regardless of the billing medium (electronic or paper).
- Domestic and International invoices can be included in one remit file.
- All payments on the transmission must total to a single check or EFT. Invoice adjustments can be included in the same transmission.

...For Transmissions

FedEx will transmit your invoice files either daily or weekly on your preferred billing day.

The following guidelines and limitations apply:

- Your ERS Analyst will assign a mailbox to you on our network, FedEx Net.
- At no cost to you, FedEx will pay for the transmission of invoice and remittance files to an electronic mailbox or to a value-added network of our choice. However, if you choose a different network, FedEx pays the costs of the transmission interconnect only. Your company is responsible for all charges from your value-added network provider.
- You will provide and maintain your equipment, software, services, and testing necessary to effectively and reliably send and receive electronic documents.
- You are responsible for using proper mailbox procedures to ensure that all electronic documents are duly authorized and protected from improper access.

INVOICING

INVOICE OVERVIEW

FedEx offers three formats for electronic invoicing. They are:

- CSV variable length format, which contains one Invoice Record per tracking number, multiple records per electronic file.
- 250 Proprietary fixed length format, which contains a Header Record, Detail Record and Summary Record.
- ASC X12 standard (variable) format, which contains one invoice per transaction set, and multiple transaction sets per electronic invoice file. Detail tracking number information contains one tracking number per LX loop, multiple tracking numbers per invoice trans-action set.

All three formats support Intra-U.S. and International shipments. You can elect to receive Intra-U.S., Ground, International (freight and/or duty tax) or both on electronic invoicing. In the electronic invoicing file all tracking number detail follows the invoice number it supports. Once all the detail records have been supplied for a particular invoice, the next invoice record begins. This cycle repeats until the last invoice file is completed.

REMITTANCE

PROCEDURES FOR SUBMITTING REMITTANCE DATA

You must create a remittance file to indicate which shipments are being paid. Your remittance file may contain all of your Intra-U.S. Ground, Express, and International invoices (electronic or paper).

FedEx accepts three different remittance formats which are:

- ASC X12 820 Remittance
- FedEx Proprietary 80-Byte Remittance
- FedEx Proprietary CSV (Comma Separated Values)

(US PAYOR ONLY)

For an explanation of how to structure a remittance/invoice adjustment file, refer to the "Remittance Record Layout" section.

When sending electronic remittance data, you have the following options:

- Pay full amount of invoice. If you pay all of the tracking numbers on an invoice, create only one payment record for that invoice
- Make a partial invoice payment. If you make a partial payment, create a separate record for each tracking number.
- You have the option of submitting payments and invoice adjustments in the same remittance file, or in separate files.

PAYMENT OPTIONS

(US PAYOR ONLY)

PAYMENT BY CHECK:

1. Prepare your payment and your remittance file, including the invoice adjustments.

The amount of your check or EFT must agree with the total amount of the remittance file.
(Negative amounts cannot be submitted.)
2. Send your check and any remittance documentation to:

By US mail:

FedEx ERS
P.O. Box 371741
Pittsburgh, PA 15250-7741

By FedEx Priority Overnight Letter:

FedEx ERS
Attn: Box 371741
500 Ross Street
Room 154-0455
Pittsburgh, PA 15250
Phone: (412) 234-5494

ELECTRONIC PAYMENT:

3. If you wish to make payment via EFT/Electronic Funds Transfer or ACH/Automated Clearing House, please contact your ERS Analyst. Accompanying remittance data can be submitted via CTX, CCD, CCD+ or other supported formats.

NOTE: Non-US accounts should contact the billing or Credit & Collections department of your country for payment options and address.

ELECTRONIC INVOICE ADJUSTMENT NOTIFICATION

(US PAYOR ONLY)

You can also use the remittance file to dispute invoicing charges. These are referred to as invoice adjustment items. Once FedEx has processed the invoice adjustment items submitted in your remittance file, you will receive an electronic invoice adjustment resolution file. The invoice adjustment resolution file uses the same structure as the invoicing file. You will receive the invoice and tracking number detail along with the invoice adjustment information. The file will contain one of the following resolution types for each tracking number:

- Credit
- Denial
- Refund
- Reject
- Other

NOTE:

- Duty/tax adjustment requests must be submitted in writing.
- Adjustment requests for service failure or no proof of delivery must be submitted through the invoice adjustment feature on fedex.com or the telephone invoice adjustment system at (800) 622-1147.

COMMUNICATION OPTIONS

It is a FedEx Information Security requirement that customer data, both inbound and outbound, either be encrypted or be sent via a secured method. FedEx offers the following options for communication of data to trading partners.

sFTP (secure File Transfer Protocol)

sFTP (secure File Transfer Protocol) uses dedicated ports to transfer data securely between FedEx and the customer. The connection is secure so no certificates or keys need to be exchanged. This also means that the commands, as well as the passwords, are secure. This option uses secure shell (SSH) encryption and a binary transfer. The data can either be pushed or delivered to a mailbox on FedEx Net.

AS2

AS2 also known as EDI INT, or EDI over the internet is also supported by FedEx. **AS2** essentially creates a wrapper around EDI or flat files that enables sending them over the Internet. **AS2** is a real-time technology that provides security and encryption around the HTTP packets. It enables information transmitted over public and private global networks to be digitally signed, secured, and non-repudiated. The customer must have AS2 software to be able to use this option, but there are no network charges.

TD Access

TD Access is software that allows trading partners to connect to their FedEx Net mailbox. TD Access handles encryption and compression of the files. A FedEx vendor supplies the software and walks the customer through the installation process. The vendor will make sure the trading partner can communicate correctly and helps the trading partner to configure TD Access to poll the mailbox at specified times. If files are present, they will be moved to a specified directory on the trading partner's system. There are no fees to the trading partner for this service.

Secured Website

Trading Partners may wish to access their mailbox via a secured website. This is a manual process whereby the trading partner connects to a secure URL using a provided User ID and password. The website allows the trading partner to upload and download files. Only one file can be uploaded or downloaded at a time.

Value Added Network

FedEx has the ability to transmit to a Value-Added Network (VAN). GXS is the VAN FedEx uses and GXS can interconnect to the trading partner's VAN. There are transmission costs for this option. Customer is responsible for VAN costs from GXS to their VAN and system.

GETTING STARTED

Once you have decided to use electronic invoice and remittance, follow this guide for testing and implementation. If you need help along the way, consult the 'Getting Help' section at the back of this guide.

You will need to successfully complete these steps before electronic invoice and remittance may begin:

1. Request an electronic invoice test file by contacting your FedEx Account Executive or your assigned Electronic Revenue Support (ERS) Analyst. If you need your Account Executive's name and telephone number, call Customer Service at 800-463-3339. Your Account Executive will submit the request to Electronic Revenue Support (ERS). You may also contact your ERS Analyst directly by dialing 888-450-1774. Your ERS Analyst will contact you to gather information and guide you through testing and implementation.
2. Program your system to read the invoice file FedEx sends you, process it through your Accounts Payable System, generate and send the remittance transmission (U.S. Payor only) (refer to the 'Invoice' section), and return to FedEx a remittance data file.
3. If you request invoice adjustments electronically, program your system to generate and send adjustment information and receive adjustment resolution files (U.S. Payor only) (refer to the 'Remittance/Adjustment' section).
4. Test in coordination with FedEx (Refer to the Implementation Guide for details).
5. When invoice testing is complete and remittance for (US payor only) testing is approved, provide your ERS Analyst with a list of all shipping accounts and the associated company names you want implemented. At your requested production date, paper invoicing will be replaced with electronic invoicing.

SUGGESTIONS FOR WHEN TO CONTACT YOUR EIA REPRESENTATIVE

NOTE: *If you do not know who your EIA representative is, contact your ERS Analyst for assistance. Refer to the 'Resources' section.*

- Prior to the submittal of an exceptionally large invoice adjustment (EIA) file.
- Prior to the submittal of an EIA file for problems or adjustment reasons you have not previously been experiencing.
- Anytime you may need to address an issue or problems not previously discussed with your EIA representative.
- When billing disputes still exist after the return of a resolution file.
- Anytime information is needed about invoice adjustment procedures or concerns.
- If you have not received your EIA response files within 5 business days.

BREAKDOWN OF EIA FILES WITH OVER 10,000 ADJUSTMENT REQUESTS

EIA files containing 10,000 or more adjustment requests will be separated into smaller files of 5,000 on the FedEx side, and the resolution files will return in the smaller files. The assigned EIA control number will remain the same except for the last digit which will change to an alpha or numeric character (A through Z, or 1, 2, 3...).

Example:

EIA control number EAST0123 is sent with 17,123 adjustment requests. The file will be separated into smaller files and the resolution files will return as shown below:

Control Number	Adjustment Line Items
EAST0123	5,000
EAST012A	5,000
EAST012B	5,000
EAST012C	2,123
Total of 4 Files	Total 17,123 Adjustment Requests

ELECTRONIC INVOICE ADJUSTMENTS HELPFUL TIPS (cont.)

EIA FILE CYCLE TIME

EIA files transmitted and received in FedEx net prior to 2:00 PM CST will download in the Electronic Invoice Adjustment system the same day. Files received after 2:00 PM CST will download in the Electronic Invoice Adjustment system the next business day.

EXPRESS MONEY BACK GUARANTEE

Accounts established on EDI after August 11, 2001 must utilize fedex.com or the IVR (Interactive Voice Response) system for Money Back Guarantee adjustment requests. Money Back Guarantee adjustment requests may not be submitted through the Electronic Invoice Adjustment process. Please refer to the FedEx Service Guide.

GROUND MONEY BACK GUARANTEE

Ground Money Back Guarantee adjustment requests may not be sent through the Electronic Invoice Adjustment process. Ground Money Back Guarantee includes requests for late delivery, proof of delivery, and packages not shipped. Please refer to the **FedEx Service Guide**.
