Regulatory Alert: Sample Shipments to Uruguay

December 1, 2017

As Per General Resolution 59/2017 which takes effect on December 1, 2017, all samples being imported or exported to and from Uruguay must clear Customs under formal entry. This is regardless of any value and also affects temporary imports and exports. This new process may cause delays and additional associated costs. You will find both import and export regulations for both temporary and normal entry processing on the following website that sets forth the regulations:
