Purpose

This help guide is provided as a supplement to assist those locations equipped with FedEx Ship Manager® in performing the appropriate functions to process dangerous goods and hazardous materials shipments for transport.

Overview

FedEx Express

You can ship domestic and international dangerous goods from Canada and the U.S. In the U.S., you can also ship domestic and U.S. territories (e.g., Puerto Rico) commodities.

When you ship dangerous goods via FedEx Express using FedEx Ship Manager Software:

- Checks that the information complies with International Air Transport Association (IATA) Dangerous Goods regulations.
- With built-in IATA tables, the Dangerous Goods database saves you time and provides accurate information.
- Prints the Shipper's Declaration for Dangerous Goods.

Requirements and other important steps for shipping dangerous goods are as follows:

1. Create a FedEx Express® shipment.
2. Create a shipping profile.
3. Set up printer.
4. Create a dangerous goods database.

FedEx Ground

FedEx Ship Manager® Software helps you provide the proper paperwork and information required for FedEx Ground® hazardous materials shipments. Requirements and other important steps for shipping hazardous materials are as follows:

1. Create a FedEx Ground shipment.
2. Create a shipping profile.
3. Set up a printer.
4. Create a shipment for FedEx Ground.
5. Create a hazardous materials database.
6. Print OP950 Hazardous Materials Certification.

Create a FedEx Express Shipment

The screenshot shows the FedEx Ship Manager v2.904 interface. The 'Ship' tab is selected. The form is divided into four main sections:

- Recipient information (2):** Includes fields for Recipient ID (TEST2), Country (US - United States), Contact name (John Doe), Company name (ABC Company), Address 1 (3875 Airways Blvd), Address 2, Postal code (38116), State/Province (TN), City (Memphis), Telephone, and a checkbox for 'This is a residential address' (checked). A 'Save in/Update my address book' checkbox is also present (3).
- Package and shipment details (4):** Includes fields for Number of packages (1), Weight (1 lb), Service type (1 - FedEx Priority Overnight), Package type (1 - Your Packaging), Package dimensions, Ship date (12/09/2015), and Declared value (\$).
- Billing details (5):** Includes fields for Bill transportation to (1 - Sender), Acct. # (113732229), Department notes, Customer reference, and P.O. number.
- Special Services (6):** Includes checkboxes for CDD, Dangerous Goods, Dry Ice Only, Hold at Location, Non-Standard Packaging, and Pharmacy Delivery. A 'View/Edit Special Service Data' button is also present.

The bottom of the screen shows a status bar with 'Clear fields', 'Delete/Modify shipment', 'Repeat shipment', 'Override prefs', 'Rate Quote and Transit Times', '\$26.11', 'Multiple-piece shipment', and a 'Ship' button.

To ship dangerous goods using FedEx Express:

1. Select the "Ship" tab.
2. On the "Shipment details" tab complete the "Recipient Information" fields.
Note: Assign an ID number or name to your recipients to save them in the database.
3. Ensure a check is in the "Save in/Update my address book" box.
4. Complete the "Package and shipment details" section (Select from the dropdown menu).
5. Complete the "Billing details" section.
6. In Special Services box, check "Dangerous Goods."

4. In the "Output" section, click "Print" to print or "Screen" to view the OP950 prior to printing.

Troubleshooting

Most Common FedEx Ship Manager Errors

Dangerous Goods Entry Screen

The following fields on the Dangerous Goods Entry screen may not be required for all shipments. Please refer to the descriptions below for clarity.

- **TECHNICAL NAME FIELD:** This space is only used for those entries with an * (asterisk) symbol after the proper shipping name in IATA. If there is no * then this field will be left blank. ***DO NOT DUPLICATE THE PROPER SHIPPING NAME IN THIS FIELD.*** IATA 4.1.2.1(d)
- **TYPE OF PACKAGING FIELD:** This space is used for the type of packaging **ONLY**. ***DO NOT PUT THE NUMBER OF PACKAGES IN THIS FIELD.*** For example: fiberboard box, steel drum, fiber drum etc.

Common Errors

The following are common errors. Please adhere to regulations pertaining to your shipment and verify the following if it applies:

- **ALTERATIONS/AMENDMENTS:** Any alteration or amendment made to the Shipper's Declaration must be signed by the shipper with the same signature used to sign the document. IATA 8.1.2.6.1.
- **SHIPPER'S DECLARATION COMPLETION:** Before tendering the completed Shipper's Declaration for Dangerous Goods to FedEx, the shipper should thoroughly check to make sure all items are completed correctly. For example: Make sure that the letters UN are preceding the UN number and verify the signature of shipper is the same name as Name/Title of Signatory etc.
- **ALL PACKED IN ONE/OVERPACK SHIPMENTS:** Do not select "All packed in One" or "Overpack" unless they apply to your shipment. The Responsible person name and telephone number is required for Infectious Substance shipments only.
- **DANGEROUS GOODS ID FIELD:** Dangerous Goods ID field is not a required field. This field is optional and is designed to access frequently shipped Dangerous Goods that you have saved under a Dangerous Goods ID code in your Database. If you do not wish to use this function then go directly to the UN/ID # field to enter your four digit UN number.
